

**Opticonx SM SC/APC Male
to Female 10 dB Attenuator
— SMSCAATT10**

Opticonx offers a full line of fiber optic attenuators. These fiber optic attenuators are used on singlemode cable to reduce signal strength while maintaining signal integrity. Attenuators are also used to simulate the expected system loss for testing purposes. They can be ordered in virtually any frequency value from 1dB to 20dB.

Product Features:

- ◆ LC, SC , ST or FC connectors
- ◆ OS2 Singlemode
- ◆ UPC or APC polish styles
- ◆ High-quality ceramic ferrules

Product Benefits:

- ◆ Ease-of-use
- ◆ Reduce signal strength
- ◆ Durable performance
- ◆ System loss simulation

Applications:

- ◆ LAN/SAN/WAN
- ◆ Datacom
- ◆ Telecom
- ◆ CATV

**Opticonx SM LC/UPC 3.0mm
Mechanical Splice On Connector
— FACSMLCU-3**
