

Xtreme™ Modular Adapter Panels (MAPs)

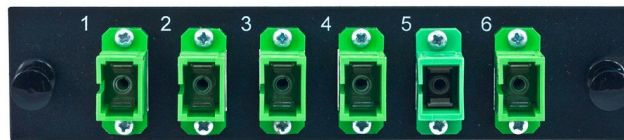

Opticonx offers industry standard and custom LGX adapter panels for a wide variety of networking and interconnect applications. Our Xtreme™ MAP Series adapter panels are designed to populate our R-series rack mount and WMP-series wall mount patch panels. They provide connection points to facilitate cross-connections or patching to network equipment. MAP panels conform to the LGX type form factor and spacing dimensions. They are available in a range of 6-144 fiber capacities and support ST, SC, LC, FC and MTP® – type connections.

Our Xtreme™ Angled MAPs provide easier access in higher-density patching applications. Opticonx Angled MAP Series Adapters are compatible with all of our WMP-series wall-mount and R-series rack-mount enclosures.

Examples:

6 x LC Duplex OM1/2

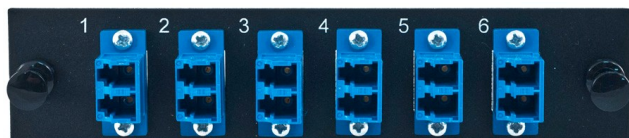

6 x SC/APC OS2 APC

6 x Angled LC Duplex OM3/4

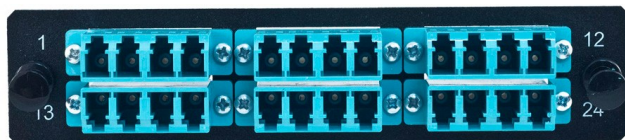

6 x SC Duplex OM3/4

6 x LC Duplex OS2 UPC

6 x ST Duplex OS2 UPC

6 X LC Quad OM3/4

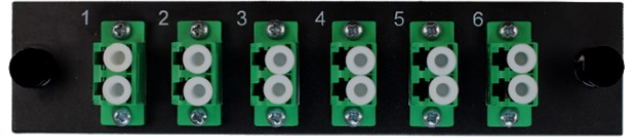

6 x 12 Fiber MTP®
